PATHWAY TO MA IN COMPUTING IN EDUCATION

BECOME A MICROSOFT CERTIFIED EDUCATOR

PROGRAM OVERVIEW

Improve your employability with our innovative Online Diploma in Online Education and transform your teaching abilities for the digital era. Our program is designed to inspire and equip educators with valuable tech-based tools and knowledge, our Online Graduate Diploma in Online Education is your gateway to advancing teaching methods and expanding career opportunities.

Through a blend of instructional design and educational technology, you'll learn to build engaging online courses, enhance learning through technology, and lead online learning initiatives.

WHO SHOULD ENROLL?

Blending insightful global knowledge with targeted practical learning, our online Diploma is designed for individuals from various backgrounds, and schools looking to amplify their impact:

- ✓ **Teachers** who are looking to integrate technology into their classrooms.
- ✓ **Principals & Academic Coordinators** looking to strengthen curriculum development capabilities and enhance the overall quality of their school's education through digital solutions.
- ✓ **Career Shifters** considering a new path in the field of education or wanting to broaden their understanding of educational practices.
- ✓ **HR Professionals** focused on talent development and looking to equip their staff with valuable knowledge through digital education.
- ✓ **Policymakers** and curriculum developers seeking to shape the future of education.
- ✓ **Education-focused** NGOs working to improve quality of education for disadvantaged communities.

CURRICULUM

Beyond traditional teaching methods, this program will empower you to integrate technology effectively into your teaching practices.

COURSES

EDUC 371 - Digital Citizenship

Delve into the ethics of technology related to responsible behavior when accessing, managing, exchanging, and disseminating information electronically.

EDUC 372 - Foundations in Distance Education

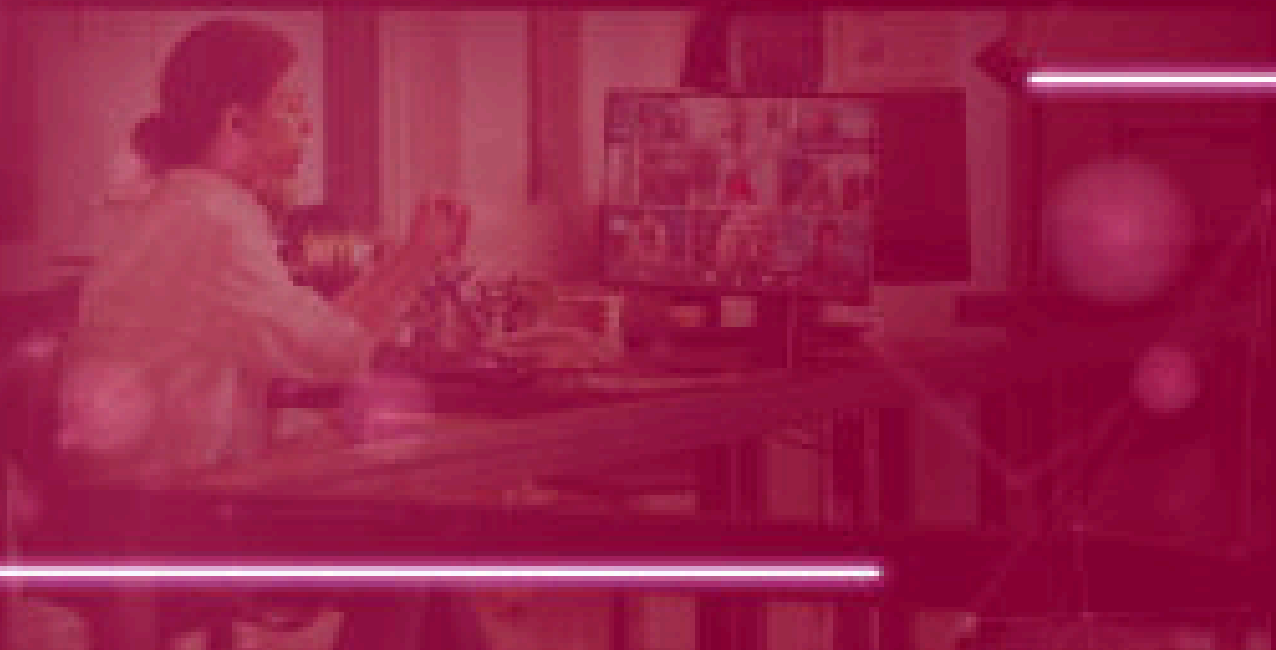

Equip yourself with the academic and practical fundamentals of online learning. Learn to deliver distance education in formal and informal settings, particularly for students in K-12 settings and adult learners in higher education.

EDUC 373 - INSTRUCTIONAL DESIGN AND DEVELOPMENT

Learn about the basic principles, tools, and techniques required for instructional design.

EDUC 374 - TECHNOLOGY & INFORMATION SYSTEMS FOR TEACHERS & ADMINISTRATORS

Explore the use of technology and information systems in schools at the administrative level, gaining insight into how different information systems' tools and applications are used in the educational environment for decision-making, planning, and communication.

BECOME A MICROSOFT CERTIFIED EDUCATOR

With our Online Graduate Diploma in Online Education, you'll not only gain comprehensive online teaching skills but also earn a Microsoft Certified Educator certification, giving you a competitive edge in the evolving online educational landscape.
